Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance of claims 1-11 and 13-18.

For independent claim 1 the prior art of record does not disclose or clearly suggest an inclinometer having an actuator configured to move one of said index member and said magnet, thereby increasing a gap between said index member and said magnet in combination with the remaining limitations of the claim.

Claims 2-11 recite limitations which, in combination with allowed claim 1, render the dependent claims allowable.

For independent claim 13 the prior art of record does not disclose or clearly suggest an inclinometer wherein when said pendulum rotates from said initial position, said cam is rotated such that said roller engages a lower point on said cam thereby allowing said spring to push said second magnet away from said first magnet in combination with the remaining limitations of the claim.

Claims 14-18 recite limitations which, in combination with allowed claim 13, render the dependent claims allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
